

● Millwright

● Electrician

A great working environment close to home

Great Teamwork
& Technology

Peace Valley OSB

The Power of the Peace

Peace Valley OSB, a limited partnership indirectly controlled by Canfor and Louisiana Pacific Canada, is an exciting company operating an advanced, \$250 million-plus oriented strandboard facility.

We're looking to attract self-motivated individuals—certified or nearing certification—who have a strong, safe work ethic and are ready to learn the latest technology.

We offer: ● steady year-round indoor work in a team setting ● specialized training ● a competitive hourly rate with potential bonuses and overtime ● extended health, dental and benefits plus a pension plan. Knowledge of the OSB manufacturing process would be an asset.

If you're interested in a rewarding career with a great team, send your résumé and cover letter to:
